Overview

The SRX-R515 is a high quality 4K digital cinema projection system designed for use in small or medium sized screen auditorium with a user-friendly design and lower cost of ownership. The projection system, which has a smaller body than the SRX-R320, is fully DCI compliant and boasts design features that make it more cost effective and simple-to-use. These include a lower cost light source system that allows easy and safe lamp replacement, a washable air filter, a single 15-inch GUI control panel and iPad and Android tablet support for remote operations.

This projection system is ideal for independent cinemas, and offers true 4K quality from the lens to the integrated media block. It features an improved SXRD optical engine, high contrast ratio of 8000:1, 15,000 lumens brightness, easy-on-the-eye Sony 3D, and high frame rate capabilities up to 60 frames per second. The system also features high-speed content ingest/transfer and high capacity storage.

Highlights
